TQ Driver will pull a number to invert the starting order. (0, 2, 4, 6)

How it works:

The Poker Series is 5-Race Series (with an extra bonus hand, making it 6) that rather than computing points, the driver receives a 'playing card'. A win translates to an Ace, second a King, third a Queen and so forth....all the way down to 13th position.

At the end of the 6 races, whatever driver possesses the BEST Poker hand wins the Series (straights, full houses, 3 of a kind, ect.). \$1 from each entry will go into the pot for their perspective class and the best Poker Hand takes the pot. The more entries, the more money there is to be won.
